

MOLLY HUERSTER

FULL-STACK WEB DEVELOPER

SAN FRANCISCO, CA

(518) 527-5874

[blog](#) — [github](#) — [email](#) — [linkedin](#)

Languages and Skills

Programming Languages

Ruby

JavaScript

HTML5

CSS3

Objective-C

Frameworks and Libraries

Rails

jQuery

AngularJS

RSpec and Minitest

Jasmine

Capybara

Frameworks and Libraries

Agile Development

TDD and BDD

Object-oriented Design

MVC pattern

REST APIs

AJAX

Experience

TripsWare (Provider of web-based expense reporting software)

Thornwood, NY
June 2013 — April 2014

- Created and maintained system-wide user manual
- Beta-tested new features for bugs and user experience
- Provided support to system users

Projects

Fauxster | [RubyGems.org](#) | [source code](#)

Wrapper gem for the HipsterIpsum API. Generates 1-100 paragraphs of hipster-themed filler text.

- Over 100 downloads as of October 2014
- Technologies: HTTP, REST APIs

BikePath | [source code](#)

iOS app for public bikeshare users. I focused on integrating the Google Maps SDK and caching data received from CitiBike.

- Technologies: Objective-C, Kiwi, Google Maps API, Google Places API
- Submission to App Store pending

Fist of Five | [source code](#)

Web app that helps students connect with instructors and TAs. I focused on using AJAX to allow users to set their location on a floor map.

- Technologies: Sinatra, Bootstrap, JavaScript, AJAX

Open Source Contributions

NewsDiffs | [NewsDiffs.org](#) | [source code](#)

- Used HTML5 to make the email subscription form more mobile-responsive.

Education

Washington and Lee University (Lexington, VA)

2013

Bachelor of Arts: Classics, Politics

- GPA 3.554
- Full tuition academic scholarship
